

Adding Secondary Accounts to MDILog
Pricing 1/1/17 – 12/31/17

This feature is ideal for customers offering forensic services to outside jurisdictions and wish to take advantage of MDILog's networking services, secured internet-based functionality, technical support and data storage for all cases processed by the agency and/or facility. Also, good for non-county access (e.g., State and Federal Grantees, OPOs, etc.) that have your approval to receive/access case data.

To qualify for this special pricing, the primary account holder must answer NO to all of the following questions:

- 1. Does the primary MDILog account holder serve as the medicolegal officer (Coroner/Medical Examiner) of the jurisdiction (County/Parish) being added? If yes, the jurisdiction must purchase a primary MDILog account.*
- 2. Is the primary MDILog account holder required to produce monthly/quarterly/annual report(s), invoice for services, or manage users for the jurisdiction being adding? If yes, these administrative responsibilities exceed secondary jurisdiction criteria and requires the purchase of a primary MDILog account.*
- 3. Will the primary MDILog account holder be activating administrative user accounts to employees of the jurisdiction being added? If yes, this gives non-employees the ability to activate additional MDILog user accounts. This is considered "reselling" the software and violates the user agreement regarding third-party users. The jurisdiction must purchase a primary MDILog account.*

If you answered NO to each question, the following pricing is available:

Population	Cost per month	Additional non-administrative accounts
0-15 cases annually	\$35	1
16-30 cases annually	\$50	2
31-50 cases annually	\$75	3
51-75 cases annually	\$100	3
76-100 cases annually	\$150	4
101-150 cases annually	\$250	4
150-200 cases annually	\$300	5
Over 200 cases annually	See Price Schedule	

EXAMPLE 1: Your facility provides forensic autopsy services to an adjacent county which sends you approximately two cases per month. Add this secondary account for only \$50 per month.

EXAMPLE 2: Your facility agrees to participates in a grant project that requires access to data stored in MDILog (NOTE: Even if your office staff are doing the work, estimated system use increases). Contact ORA for statewide access pricing.

NOTE 1: Pricing is based on estimated case volume. This is adjusted annually.
